Dearest Going on "50 years" (include
Sis too - ha!) Am ^{air} mailing you a
small gift - nearest thing to
gold I can find until spring.
I can go gold mining ^{so} it should
reach you just between birthdays.
Works on expansion-contraction
principal & seems quite accurate.
Coop has a big one - same principal
in the wea. station. How about
that heat wave you're having
again! Here it is trying to snow!
Do hope Dad is thro' "stinging"
by now. Maybe the warm wea.
will help you all. After all
couldn't he take up a less pain-
ful "occupation" than stinging?
I remember how Helen suffered
w/ them. Shall write her asking
for a ride from Seattle in Aug.
I maybe can get her home for
the 50th too. won't hurt to try. Love to all

CM
